3.

Saturday , March 24th
We have arrived in the hot, wet city of Bangkok (曼谷). This is our first trip to Thailand. All the different smells make us want to try the food. We are going to eat something special for dinner tonight. The hotel we are staying in is cheap and very clean. We plan to stay here for a few days, visit some places in the city, and then travel to Chiang Mai (清迈) in the north.
Tuesday, March 27th
Bangkok is wonderful and surprising! The places are interesting. We visited the famous market which was on water, and saw a lot of fruits and vegetables. Everything is so colorful, and we have taken hundreds of photos already! Later today we will leave for Chiang Mai. We will take the train north, stay in Chiang Mai for two days, and then catch a bus to Chiang Rai (清莱).
Friday , March 30th
Our trip to Chiang Rai was long and boring. We visited a small village in the mountains. The village people here love the quiet life — no computers or phones. They are the kindest people I have ever met. They always smile and say "hello". Kathy and I can only speak a few words of Thailand, so smiling is the best way to show our kindness. I feel good here and hope to be able to come back next year.

4. Shenzhou 13 manned spaceship went to space successfully on October 16, 2021. Three Chinese astronauts, Zhai Zhigang, Wang Yaping, Ye Guangfu were taken to space. They will stay in space for six months. It is the eighth time for Chinese to visit space after Yang Liwei went as the first Chinese 18 years ago. These special "visitors" can take fantastic photos in space, just like taking trips there. Can common people go to visit space like them? The answer is "yes".

On September 15th, 2021, Space X sent four common people into space. The four spent three days in space. In July 2021, 70-year-old British billionaire (亿万富翁) Richard Branson, and 57-year-old American billionaire Jeff Bezos, both flew into the space. But some think these trips are for the super rich. With the sky-high prices, most common people should give up their space dreams. However, US flight engineer (航天工程师) Bobak Ferdowsi believes the price will come down. "Maybe in 10 to 15 years, it's a decision between 'do I buy a new car' or 'do I go to space?'"

Anyway, even we can't have a space trip now, we have been able to have a science class from space. The woman astronaut Wang Yaping gave us a science class on December 9th 2021, just as she did eight years ago. That was great fun. We will also be able to enjoy a space movie. A Russian film team stayed on the International Space Station from October 5th to 16th 2021, to film the movie Challenge. It's the first time a movie was filmed in space.

- (1) The first Chinese went to space in a manned spaceship in _____.
A. 2021 B. 2013 C. 2003 D. 2006
- (2) _____ went to space as a common visitor.
A. Richard Branson. B. Yang Liwei. C. Wang Yaping. D. Zhai Zhigang
- (3) The underlined word "sky - high" in paragraph 2 means _____.
A. very low B. very high C. very difficult D. very easy
- (4) _____ made the first movie in space.
A. China B. America C. Russia D. Canada
- (5) Which of the following is true?
A. It's very cheap for common people to travel to space.
B. Wang Yaping gave her first science lesson from space in 2021.
