4. Computers are very important in our life. People can search for information, send emails and do many other things. Many people shop on the Internet, because they have no time to go shopping. But there are still many people shopping in the stores. We have got some numbers in a survey (调查). Let's have a look !

45% people like shopping on the Internet and 55% people don't like shopping on the Internet.

64% people learn about things on the Internet before buying them in the stores.

71% women buy things on the Internet. But only 52% men do this.

Why do many people shop in the stores? Because some people don't want to wait for their things to arrive. And some want to see the real things before buying them. What do you think of it?
